Join us for an update on the ANREV Business Plan for 2019 as part of this official meeting to present our accounts for 2018 and other proposed resolutions. The meeting notice and proxy forms will be sent to all members separately.

ANREV

With the policy shift to city or even district-specific local tightening or easing measures, diverging credit conditions for developers and confusing headline level property market indicators, what's a sensible way to look at the China housing markets in 2019-2020? What are the big questions on LPs' minds and how to address them?

In this presentation, Robert Ciemniak, the Founder and CEO of Real Estate Foresight and Robotic Online Intelligence, will share a data-driven perspective combined with first-hand primary research on regional and city-level China housing markets.

Speaker

Robert Ciemniak
Founder-CEO
Real Estate Foresight (REF)
Robotic Online Intelligence

REF is an independent research boutique specialising in China housing markets, as well as Robotic Online Intelligence (2017), a Fintech / Proptech / AI venture in analytics and research automation.

Over the past 7 years, Robert has been a regular conference speaker and moderator at the real estate industry events in China, Hong Kong and Singapore, and a contributor to specialist industry publications and media.

REF research is distributed directly to clients and is also present on Bloomberg {REFC <GO>}, Thomson Reuters, and Smartkarma.

Robert holds a dual MBA degree from London Business School and Columbia Business School in New York, and MSc from Warsaw School of Economics. He is also an international master in chess and the author of a book about the Internet and competitive strategy (1999).
